

Surveyor

We invite you to
take the road
less traveled...
and make it
all the difference.

Surveyor Production Team: (Left to Right) Dale G., Service/Production Floater since 2001, Wayne "Junior" T., Group Plant Manager -3 Plants, Brian S., Plant Manager, 16 years+

SURVEYOR.

FIELD TESTED SINCE 2001

"DO YEARS IN BUSINESS AND EXPERIENCE BUILDING RV'S AT THE SAME FACTORY MATTER WHEN CHOOSING WHICH TRAVEL TRAILER TO PURCHASE ... WE THINK IT SHOULD!"

Fully Laminated & Insulated Walls (R9)

Aluminum framing in sidewalls, rear wall, slide room, and floor are double welded and pinched rolled at 1600 PSI and closed cell block foam insulation is used in the framing providing optimum heating/cooling comfort.

Quality constructed to a higher standard, Surveyors are Air-Pressured Sealed Tested to ensure maximum efficiency and comfort.

Coroplast Enclosed Heated Underbelly

- A. Almost indestructible, maintenance free.
- B. Insulates underbelly & tanks, forms a double walled layer pocket of air
- C. 2" laminated aluminum floor with aluminum cross studding & double laid plywood flooring

Azdel Onboard

Composite panels produced using a patented blend of polypropylene and fiberglass, which replaces wood backing. Used on Surveyor sidewalls, rear, front and slide room walls. (NA Front of Luxury, Fiberglass Cap)

-  A. Protects against delamination - repels water; no rot, mold, or warpage..
-  B. Unaffected by humidity or temperature changes - common cause of delamination.
-  C. 2x insulation value - blankets like a "radiant foil"
-  D. 1/2 the weight of wood - keeps fuel costs down.
-  E. Longer life and better resale value.
-  F. Quieter RV - absorbs sound waves.

5 Sided Aluminum Cage Construction

Aluminum framing around all openings. Windows no caulking required, saves time and up to \$100s annually. Additional aluminum usage adds to the structural integrity.

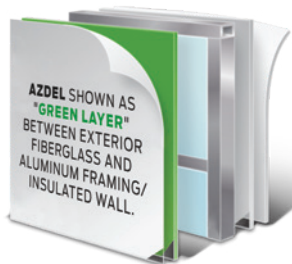

52 Cu. Ft. Pass-Through Storage

Constructed with upgraded "Drop Frame" for best in class exterior storage - many models.

PVC Membrane - Fully Walkable Roof

16" on center aluminum trusses (wood on Sub-4,000 lb series), featuring 3/8" decking, residential R14 blanket insulation, finished with best in class PVC roof membrane.

- A. No treatments required ever. Save time every 6-12 months & up to \$100s annually.
- B. Most energy efficient & UV reflective roof.
- C. 15 year warranty, 100% coverage.
- D. 2x the tear puncture strength of rubber & TPO roofs
- E. No chalk, streaks, or spots.

TWO-TIME SURVEYOR OWNERS, IN THEIR OWN WORDS

We just purchased our 2nd Surveyor. We really enjoyed our current Surveyor, both the quality of workmanship, the layout, and the amount of storage.

We are experienced RV'ers and over the years we have owned campers, fifth wheels, and travel trailers; so when we determined we needed a little longer travel trailer for our extended trips, we immediately thought of another Surveyor and our excellent dealings with the previous dealer.

Lynn & Michele Adair
Tallahassee, FL, 2019

SURVEYOR LEGEND

MURPHY BEDS

No mattress taking up valuable storage space; and bedding not exposed to whatever else could be in there

- 82.5" BARRELED CEILING
- FRICTION HINGE ENTRY DOOR
- BEST-IN-CLASS STORAGE
- PORCELAIN TOILET
- POWER TONGUE JACK
- 100% LED EXTERIOR & INTERIOR LIGHTING
- USB PORTS
- 7-PLUG CORD HOLDER
- HIGH OUTPUT W/H

Legend Murphy Beds are the smartest use of space in order to tow a shorter trailer that has both a dinette & sofa. It's your call - you can leave the Murphy Bed down full time OR easily flip up and use the sofa. Surveyors are better designed; **60 x 80 Residential Queen Bed**, like at home. Add a mattress pad if you want, it fits! The key is your mattress & bedding are NOT exposed in pass thru storage nor taking up valuable storage space.

OFF-SITE PDI TESTING - EVERYDAY!

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo,

fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
